

Setting Up Dropbox on cake/pie

1. Create a Dropbox account
go to dropbox.com from a browser
2. Login to cake
3. Start dropbox
`dropbox start -i`
4. Once it finishes running, check the status
`dropbox status`
5. Paste the given URL into a browser to link this computer
if necessary
6. Add autostart of dropbox at login
add the following lines to `~/.profile`:
`dropbox start &> /dev/null`
`echo "Dropbox Status is: "; dropbox status`
7. Repeat on pie (if necessary)
